Professional Summary

Data-driven Software Engineering student with a Data Science major (CGPA **3.55/4.00**), skilled in data analytics, machine learning, statistical modelling, and business intelligence. Proficient in Python, SQL, data visualisation, and predictive analytics; IBM-certified in Data Analytics and Data Science. Seeking opportunities in data analytics, business intelligence, and data science, with a long-term career in artificial intelligence and advanced data-driven technologies.

Technical Skills

Data Analysis & Reporting: SQL, Excel, Pandas, NumPy, Statistical Analysis, EDA, Data Cleaning, Feature Engineering, Power BI, Tableau

Data Visualisation: Matplotlib, Seaborn, Plotly

Machine Learning & AI: Scikit-learn, XGBoost, CatBoost, Random Forest, Natural Language Processing (NLP), Generative AI, Supervised Learning, Unsupervised Learning, Classification, Regression, Precision-Recall, F1-Score, ROC-AUC

Engineering & Deployment: Python, R, Java, C/C++, JavaScript, Flask, Spring Boot, REST API, Docker, Git/GitHub, Model Deployment, Production ML

Databases & Tools: PostgreSQL, MySQL, Supabase, Jupyter Notebook, Google Colab, VS Code, PyCharm

Work Experience

Data Science Intern | *Codio AI Solution*

May 2026 – Present

- Building automated ETL pipelines and predictive analytics; generating actionable BI insights through dashboard reporting, KPI monitoring, and business analytics.

Data Science Intern | *SaiKet Systems*

Apr 2026 – May 2026

- Processed 50K+ records via Pandas/NumPy pipelines (40% faster); validated data quality with imputation and outlier detection.
- Deployed 3 ML models via REST API (30% accuracy improvement); evaluated using precision-recall and F1-score; communicated results to stakeholders.

Video Editor & Content Creator | *GoEdu*

Feb 2025 – Feb 2026

- Produced 50+ videos reaching 10K+ learners; applied content analytics to drive 25% engagement increase.

Data Entry Operator | *Golden Harvest InfoTech Limited*

Jan 2022 – Dec 2022

- Managed 100K+ records at 99.8% accuracy with data quality assurance; optimised verification workflows (20% faster).

Projects

- Finzy — Personal Finance Analytics Dashboard**

[GitHub]

Stack: Next.js, PostgreSQL, Supabase, Google Gemini AI, Docker, REST API

Full-featured **financial analytics dashboard** with real-time reporting, automated expense categorisation, budget tracking, and AI-driven spending insights.

- Heart Failure Prediction**

[GitHub]

Stack: Python, Scikit-learn, Pandas, Matplotlib, Seaborn

Full **EDA and statistical analysis** on **12 clinical features**; Logistic Regression achieving **84% accuracy** with confusion matrix and **classification reporting**.

- Student Performance Prediction**

[GitHub]

Stack: CatBoost, Scikit-learn, Flask, Docker

Data analytics pipeline identifying key academic performance drivers; predictive model deployed via Docker and REST API for real-time insights.

- Movie Recommendation System**

[GitHub]

Stack: Flask, Scikit-learn, Pandas, NumPy, SciPy, TMDB API

Data-driven **recommendation analytics** engine using content-based and collaborative-filtering; deployed as a live web application.

Education

B.Sc. in Software Engineering, Major: Data Science | *Daffodil International University*

Jan 2023 – Present

CGPA: **3.55 / 4.00**

Higher Secondary School Certificate (HSC) — Science | *Daffodil International College*

Jul 2019 – Dec 2021

GPA: **4.33 / 5.00**

Secondary School Certificate (SSC) — Science | *Agargaon Adarsha High School*

Jan 2017 – Feb 2019

GPA: **3.89 / 5.00**

Certifications

- IBM Data Analyst Professional Certificate** — Coursera
- IBM Data Science Professional Certificate** — Coursera
- IELTS Academic:** Overall Band **7.0** (L 7.5 | R 7.0 | W 7.0 | S 6.5)
