Professional Summary

Data Science-focused Software Engineering student (CGPA 3.55/4.00) with hands-on experience in **machine learning**, **data analysis**, and **AI-powered application development**. Actively interning at two Data Science companies; IBM-certified in **Data Analytics** and **Data Science**, with a clear goal of building a career as an **AI/ML Engineer**.

Technical Skills

- **Data Analysis:** Pandas, NumPy, Statistical Analysis, EDA, Data Cleaning, Feature Engineering, Matplotlib, Seaborn, Plotly, Tableau, Power BI, Excel
- **Machine Learning & AI:** Scikit-learn, XGBoost, CatBoost, Random Forest, NLP, Generative AI
- **Engineering & Deployment:** Python, R, SQL, Java, C/C++, JavaScript, Flask, Spring Boot, REST API, Docker, Git/GitHub
- **Databases & Tools:** PostgreSQL, MySQL, Supabase, Jupyter Notebook, Google Colab, VS Code, PyCharm

Work Experience

Data Science Intern | *TecVix*

May 2026 – Present

- Building **ML pipelines** and applying **predictive modelling** to real-world datasets to support data-driven product and BI decisions.

Data Science Intern | *SaiKet Systems*

Apr 2026 – May 2026

- Processed **50K+ records** via automated Pandas/NumPy pipelines, cutting data preparation time by **~40%**.
- Deployed **3 ML models** via REST API, improving BI reporting accuracy by **~30%**.

Video Editor & Content Creator | *GoEdu*

Feb 2025 – Feb 2026

- Produced **50+ educational videos** reaching **10K+ learners**; data-informed content strategy drove a **25%** engagement increase.

Data Entry Operator | *Golden Harvest InfoTech Limited*

Jan 2022 – Dec 2022

- Managed **100K+ records** at **99.8%** accuracy; streamlined verification workflows, cutting processing time by **20%**.

Key Projects

• **Finzy — AI-Powered Personal Finance Management System**

Stack: Next.js, PostgreSQL, Supabase, Google Gemini AI, Docker, REST API

AI receipt scanning, automated **expense categorisation**, real-time budget alerts and a full financial analytics dashboard.

• **Movie Recommendation System**

Stack: Flask, Scikit-learn, Pandas, NumPy, SciPy, TMDb API

End-to-end **content-based** and **collaborative-filtering** engine deployed as a live web application.

• **Heart Failure Prediction**

Stack: Python, Scikit-learn, Pandas, Matplotlib, Seaborn

Logistic Regression on **12 clinical features** achieving **84% test accuracy**; full EDA, confusion matrix and classification report.

• **Student Performance Prediction**

Stack: CatBoost, Scikit-learn, Flask, Docker

End-to-end ML pipeline predicting academic outcomes; Dockerised and published on DockerHub with a **REST API** interface.

Research & Publications — *In Progress*

- **AI-Based Carbon Footprint Prediction:** Random Forest, XGBoost and MLP Regressor applied to behavioural and energy-consumption datasets.
- **Effect of Incomplete Data on ML Performance:** Studying accuracy degradation in Logistic Regression, Decision Tree and KNN under varying missingness levels.

Education

B.Sc. in Software Engineering, Major: Data Science | *Daffodil International University*

Jan 2023 – Present

CGPA: 3.55 / 4.00

Higher Secondary School Certificate (HSC) — Science | *Daffodil International College*

Jul 2019 – Dec 2021

GPA: 4.33 / 5.00

Certifications & Language

- **IBM Data Analyst Professional Certificate** — Coursera
- **IBM Data Science Professional Certificate** — Coursera
- **IELTS Academic:** Overall Band **7.0** (L 7.5 | R 7.0 | W 7.0 | S 6.5)
